

Recommended Safety Practices for Fall Protection and Working at Heights at Fueling Facilities

CONTENTS

Foreword iii

SECTIONS

	Page
1. Introduction	
1.1 Origin	1
1.2 Background	1
1.3 Purpose	1
1.4 Scope	1
1.5 Exceptions	1
1.6 Interpretations	1
1.7 Sources	2
1.8 Use of Other PEI Resources	2
2. Definitions	3
2.1 Activation Distance	3
2.2 Active Fall Protection System	3
2.3 Administrative Controls	3
2.4 Anchorage	3
2.5 Anchorage Connector	3
2.6 Anchorage System	3
2.7 Arresting Distance	3
2.8 Arresting Force	3
2.9 Available Clearance	3
2.10 Body Harness	3
2.11 Capacity	3
2.12 Cage	3
2.13 Carabiner	3
2.14 Certified	3
2.15 Certified Anchorage	3
2.16 Clearance	3
2.17 Competent Person	3
2.18 Connecting Means	3
2.19 Connector	3
2.20 Dangerous Equipment	4
2.21 Davit Arm	4
2.22 Deceleration Device	4
2.23 Deceleration Distance	4
2.24 D-ring	4
2.25 Energy (Shock) Absorber	4
2.26 Engineered Anchor	4
2.27 Fall Arrest	4
2.28 Fall-Arrest System	4
2.29 Fall Hazard	4
2.30 Fall Prevention	4
2.31 Fall Protection	4
2.32 Fall Protection System	4
2.33 Free-Fall	4
2.34 Free-Fall Distance	4
2.35 Guardrail System	4
2.36 Hardware	4
2.37 Horizontal Lifeline	4

2.38 Inspections and Assessments.....4

2.39 Lanyard.....4

2.40 Leading Edge.....4

2.41 Lifeline5

2.42 Lifeline Tensioner.....5

2.43 Maximum Arrest Force (MAF).....5

2.44 Maximum Arrest Load (MAL)5

2.45 Platform.....5

2.46 Qualified Person (QP)5

2.47 Rescue5

2.48 Rescue Plan (Fall-Arrest)5

2.49 Restraint System.....5

2.50 Rigid Anchorage Subsystem5

2.51 Rigging5

2.52 Sag5

2.53 Safety Margin5

2.54 Self-Retracting Lanyard (SRL)5

2.55 Signal Person.....5

2.56 Snap hook.....5

2.57 Stable Surface.....5

2.58 Suspension.....5

2.59 Suspension Trauma (Harness-Induced Pathology)5

2.60 Thimble6

2.61 Toe Board6

2.62 Total Fall Distance6

2.63 Warning Line System6

2.64 Walking/Working Surface6

3. Fall Protection when Working at Heights..... 7

3.1 General Regulations7

3.1.1 What is Required?.....7

3.1.2 Hierarchy of Fall Protection7

3.1.2.1 Hazard Elimination7

3.1.2.2 Passive Fall Protection7

3.1.2.3 Fall Restraint Systems.....8

3.1.2.4 Fall Arrest Systems8

3.1.2.5 Administrative Controls8

3.2 Why is Fall Prevention/Protection Necessary?9

3.2.1 Fall Protection Regulations9

3.2.1.1 OSHA 1910 (General Industry) 1910.28(b)(1)(i)9

3.2.1.2 OSHA 1926 (Construction) 1926.501(b)(1)9

3.3 When is Fall Prevention/Protection Needed?9

3.3.1 Working at Heights9

3.3.2 Retail and Commercial Fueling Industry Activities/Examples9

3.3.2.1 Tanks10

3.3.2.2 Service Work10

3.3.2.3 Testing10

3.4 What is Needed?10

3.4.1 Types of Ladders and Stools.....10

3.4.2 Lifts10

3.4.3 Other High Reach Devices10

3.4.4 Personal Protective Equipment (PPE)10

3.4.4.1 Standard PPE.....10

3.4.4.2 Full Body Harness.....10

3.4.4.3 Lanyard & Positioning Lanyard.....11

3.4.4.4 Connection/Anchor Points/Locations11

3.4.4.5 Connection Components11

3.4.4.6	Lifeline	11
3.4.4.7	Energy Absorbers	11
3.4.4.8	Self-Retracting Devices.....	11
3.4.4.9	Personal Fall Arrest Systems.....	11
3.5	How is it Used?.....	12
3.5.1	Training Program	12
3.5.2	Inspection	12
4.	Managed Fall Protection Program	13
4.1	Developing a Fall Safety Plan.....	13
4.1.1	Fall Hazard Analysis	13
4.1.2	Planning/Selection of Fall Protection Systems	13
4.1.3	Policy Development	13
4.1.4	Fall Protection Equipment Selection	13
4.1.5	Training and Education	13
4.1.6	Inspection	14
4.1.7	Documentation and Recordkeeping	14
4.1.7.1	Health & Safety Plan.....	14
4.1.7.2	A Fall Protection Plan	14
4.2	Duties and Responsibilities	15
4.2.1	Qualified Person	15
4.2.2	Competent Person	15
4.2.3	Safety Monitor	15
4.2.4	Authorized Worker.....	15
4.2.5	Supervisor, Foreman, Safety Manager/Director	15
4.3	Minimum Training Intervals	15
4.3.1	Review Requirement.....	16
4.3.2	Retraining	16
4.4	Inspection, Maintenance and Storage of Fall Protection Equipment	16
5.	Ladders & Lifts	17
5.1	Ladder.....	17
5.1.1	Selecting the Appropriate Ladder	17
5.1.1.1	Ladder Types/Description For Use	17
5.1.2	Ladder Inspection Process	18
5.1.2.1	OSHA Regulation.....	18
5.1.2.2	Labeling.....	18
5.1.2.3	Ladder Duty Rating.....	19
5.1.3	Ladder Usage	20
5.1.3.1	Training	20
5.1.3.2	Deflection/Kickout	20
5.1.3.3	Tie Off	20
5.1.3.4	Accessing a Roof.....	20
5.1.4	Safe Work Practices	21
5.1.4.1	Identifying Site Hazards.....	21
5.1.4.2	Barricading	21
5.1.4.3	Three Points of Contact.....	21
5.2	Lifts and Mobile Elevated Work Platforms (MEWP).....	22
5.2.1	Types of MEWP	22
5.2.1.1	Group A MEWP	22
5.2.1.2	Group B MEWP	22
5.2.2	Aerial Lifts	22
5.2.3	Scissor Lift	22
5.2.4	Bucket Truck	22

6.	Tank Fall Protection.....	24
6.1	Underground Storage Tanks (USTs).....	24
6.1.1	Tank Pre-work.....	24
6.1.1.1	Tank Arrival/Removal from Truck.....	24
6.1.1.2	Inspection.....	25
6.1.1.3	Rigging/Lift Preparation.....	25
6.1.1.4	Lifting/Rigging Hazard Statement.....	25
6.1.2	Tank Installation.....	26
6.1.2.1	Tank Deflection/Level.....	26
6.1.2.2	Derigging.....	26
6.1.2.3	Tank Tie-Down Straps.....	26
6.1.2.3.1	One-Piece Tank Tie-Down Straps.....	26
6.1.2.3.2	Use of Two-Piece Tank Tie-Down Straps.....	26
6.1.3	Alternate Fall Protection Methods.....	27
6.1.3.1	Horizontal Lifeline System.....	27
6.1.3.1.1	OSHA 5000 Pound Requirement.....	28
6.1.3.1.2	Lifeline Anchor Points.....	28
6.2	Aboveground Storage Tanks.....	28
6.2.1	Tank Pre-Work.....	28
6.2.1.1	Delivery.....	28
6.2.1.2	Inspection.....	28
6.2.1.3	Rigging/Prepare to Lift/Set.....	29
6.2.1.4	Lifting/Rigging Hazard Statement.....	29
6.2.2	Guard Rails and Catwalks.....	29
6.2.2.1	Permanent Systems.....	29
6.2.2.2	Temporary Use Systems.....	30
6.2.3	Horizontal Lifeline System.....	30
6.3	Excavations.....	30
6.3.1	Excavation Hazard Statement.....	30
6.3.2	Entering the Excavation.....	30
6.3.3	Working near the Excavation.....	30
6.4	Industry-Specific Practices.....	31
6.5	PEI Recommended Fall Restraint Bundle.....	31
7.	Roof Tops & Fuel Island Canopies.....	32
7.1	Accessing.....	32
7.1.1	Ladder.....	32
7.1.1.1	Portable.....	32
7.1.1.1.1	Crowded Work Area.....	32
7.1.1.1.2	Height Limitations.....	32
7.1.1.1.3	Special Considerations.....	32
7.1.1.1.4	Use of a Spotter/Safety Monitor.....	33
7.1.1.2	Fixed Ladders.....	33
7.1.2	Mobile Elevated Work Platform/Lifts.....	33
7.1.2.1	General Statement.....	33
7.1.2.2	Proper Training.....	33
7.1.2.3	Proper Use.....	33
7.1.2.4	Harness Use.....	34
7.1.2.5	Stability.....	34
7.1.3	Bucket Truck.....	34
7.2	Working on the Roof/Canopy.....	34
7.2.1	Personal Fall Arrest System.....	34
7.2.1.1	Identify Anchor Points.....	35
7.2.1.2	I-Beam Clamp.....	35
7.2.1.3	Parapet Wall Anchor.....	35
7.2.1.4	Cinch Loop Choker.....	35
7.2.1.5	Post Anchor.....	35

7.2.1.6 Counterweight Anchor 35
 7.2.4 Verify Roof Structure Support Will Support Worker 35
 7.2.5 Weather..... 36

8. Weather Impacts and General Housekeeping 37

8.1 Weather Related Hazards 37
 8.1.1 Rain, Dew, Fog & Humidity 37
 8.1.2 Snow/Sleet..... 37
 8.1.3 Ice/Frost..... 37
 8.1.4 Windy Conditions 37
 8.1.5 Lightning 38
 8.2 Biologics..... 39
 8.2.1 Mold 39
 8.2.2 Algae 39
 8.3 Temperature..... 39
 8.3.1 Heat-Related Impacts 39
 8.3.2 Hot Surfaces 39
 8.4 Presence of Fuel/Fuel Residue 39
 8.5 General Housekeeping 40
 8.5.1 Workplace Storage and Tools 40
 8.5.2 Tethers 40
 8.6 Walking/Working on Slippery/Uneven Surfaces 40

9. Using Active Fall Protection Devices 41

9.1 Anchorages 41
 9.1.1 5000 lb. Requirement..... 41
 9.1.2 Alternate Anchorage Requirement/2:1 Engineering Design Safety Factor..... 41
 9.1.3 Fixed and Portable Anchor Points..... 41
 9.2 Body Harness 41
 9.2.1 Full-Body Harness Integral to Personal Fall Arrest System (PFAS)..... 41
 9.2.1.1 Harness Types..... 42
 9.2.1.2 Comfort & Proper Fit 42
 9.2.1.3 Sizes..... 42
 9.2.1.4 Cleaning and Storage Concerns 42
 9.2.2 Training 42
 9.2.2.1 Initial Training 43
 9.2.2.2 Retrain 43
 9.2.2.3 Special Roles 43
 9.2.3 OSHA Fall Protection Harness Inspection Requirements 43
 9.2.3.1 Regular Inspection of Fall Arrest Equipment 44
 9.2.3.2 Prior to Use..... 44
 9.2.3.3 Manufacturers 45
 9.2.3.4 Documentation and Recordkeeping 45
 9.2.3.4.1 Labeling Intact 45
 9.2.3.4.2 Expiration Date 45
 9.2.4 Body Belts..... 45
 9.3 Connecting Devices..... 45
 9.3.1 Lanyard 45
 9.3.2 Self Retracting Lifeline..... 45
 9.3.3 Travel Restraint Line 46
 9.3.4 Shock Absorbing Lanyard..... 46
 9.3.5 Twin Leg, Double Leg, Y or V lanyards 46
 9.3.6 Safety Lines/Lifelines 46
 9.3.6.1 Horizontal 46
 9.3.6.2 Vertical..... 46
 9.3.7 Snap Hook..... 46

9.4	ABCs of Fall Protection	46
9.4.1	Anchorage	46
9.4.1.1	Choker	46
9.4.1.2	Beam Clamp	46
9.4.2	Body Support (Harness).....	46
9.4.2.1	Full Body Harness	47
9.4.3	Connectors.....	47
9.4.3.1	Lanyard.....	47
9.4.3.2	Self-Retracting Lanyard	47
10.	Other Relevant Topics	48
10.1	Calculating Fall Distance	48
10.2	Rescue and Extrication.....	48
10.2.1	Components of a Rescue Plan	48
10.2.2	Rescue Equipment.....	49
10.3	Working Alone	49
10.4	Train, Train, Train	50
10.5	Communication	50
Appendix A:	Sign In/Sign Off Sheets/Inspection Forms	51
A.1	Full Body Harness Inspection Form	51
A.2	Lanyard Inspection Form	52
A.3	Tie-Off Adaptor Inspection Form	53
A.4	Hook/Carabiner Inspection Form.....	54
A.5	Anchorage Plate Inspection Form.....	55
A.6	Self Retracting Lifeline Inspection Form	56
A.7	General Equipment Inspection Checklist/Log	57
A.8	Fall Protection Equipment Inspection Log	58
A.9	Ladder Inspection Form	59
A.10	Bucket Truck Pre-Use Checklist	62
Appendix B:	Publication Reference	63
