

Recommended Practices for the Design, Construction, Installation, Operation and Maintenance of Liquefied Natural Gas/Liquefied Compressed Natural Gas Vehicle Fueling Facilities

CONTENTS

Foreword.....	iii
---------------	-----

SECTIONS

1. Introduction.....	1
1.1 Origin.....	1
1.2 Background.....	1
1.3 Purpose	1
1.4 Scope	1
1.5 Sources	2
1.6 Codes and Standards	2
1.7 Importance of Competent Installers and Technicians.....	2
1.8 Importance of Competent LNG Facility Operators	2
2. Definitions	3
2.1 Approved.....	3
2.2 Bleed Valve	3
2.3 Breakaway Connector	3
2.4 British Thermal Unit (BTU)	3
2.5 Classified Area	3
2.6 Class I, Division 1	3
2.7 Class I, Division 2.....	3
2.8 Deflagration.....	3
2.9 Diesel Gallon Equivalent (DGE).....	3
2.10 Dispenser Pump.....	3
2.11 Downstream.....	3
2.12 Drip Leg	4
2.13 Dual Phase Flow	4
2.14 Emergency Shutdown Device (ESD).....	4
2.15 Emergency Stop Switch (E-Stop)	4
2.16 Enclosure.....	4
2.17 Extended Stem Valves.....	4
2.18 Full-Port Valve	4
2.19 Hose Assembly.....	4
2.20 Hydrocarbon.....	4
2.21 Intrinsically Safe Circuit	4
2.22 Isolation Valve.....	4
2.23 Listed.....	4
2.24 Liquefied to Compressed Natural Gas Facility.....	4
2.25 Liquefied Natural Gas (LNG)	4
2.26 Liquid Level Gauge.....	4
2.27 LNG Containment	4
2.28 LNG Equipment Packager	5
2.29 LNG Nozzle	5
2.30 LNG Sump	5
2.31 Lower Explosive Limit (LEL)	5
2.32 Maximum Allowable Working Pressure (MAWP)	5
2.33 Mercaptan.....	5
2.34 Methane	5
2.35 Natural Gas.....	5
2.36 Non-Incendive Circuit.....	5
2.37 Off-Load Pump	5
2.38 Permissives.....	5

2.39	Pneumatic Testing	5
2.40	Pound per Square Inch (PSI).....	5
2.41	Pressure Regulator.....	5
2.42	Pressure Relief Valve (PRV)	5
2.43	Pressure Sensor	5
2.44	Programmable Logic Controller (PLC)	5
2.45	Pull Box.....	6
2.46	Purge System.....	6
2.47	Purple K (PKP)	6
2.48	Receiver Tank.....	6
2.49	Receptacle	6
2.50	Safety Relief Valve.....	6
2.51	Saturation.....	6
2.52	Saturation Vaporizer.....	6
2.53	Standard Conditions	6
2.54	Storage Tank Compound.....	6
2.55	Trycock.....	6
2.56	Tube or Tubing	6
2.57	Unattended LNG Fueling Facility.....	6
2.58	Upstream	6
2.59	Vacuum-Jacketed Piping	6
3.	Characteristics of Natural Gas	7
3.1	Composition of Natural Gas	7
3.2	Characteristics of LNG.....	8
3.3	Distribution of Liquefied Natural Gas.....	8
3.4	Hazards of Natural Gas	8
3.5	Odorant.....	8
3.6	Safety.....	8
4.	Filling a Vehicle with LNG.....	9
4.1	Introduction	9
4.2	Diesel Gallon Equivalent	9
4.3	Fueling Process	9
4.4	Typical LNG Vehicle Fuel Tank Capacities.....	9
4.5	Frost on LNG Hanging Hardware.....	9
5.	Basic Components of an LNG Fueling System	10
5.1	Introduction	10
5.2	LNG Supply	10
5.3	Off-Load Hoses and Connections	10
5.4	Grounding Equipment.....	10
5.5	Containment System	10
5.6	Transfer Piping	10
5.7	LNG Off-Load Pump	11
5.7.1	Ground-Mounted Pump.....	11
5.7.2	Trailer-Mounted Pump.....	11
5.8	Saturation Heat Exchanger (Ambient Air).....	11
5.9	Storage Tank.....	11
5.10	Safeguarding System.....	11
5.11	Warnings and Informational Signage.....	11
5.12	Boil-off Gas Management System.....	11
5.13	LCNG Interface Equipment	11
5.14	Dispenser	11
5.14.1	Dispenser Listing	12
5.15	Hanging Hardware	12
5.15.1	Nozzle.....	12

5.15.2 Breakaway Connectors	13
5.15.3 Retractor System.....	13
5.16 LNG Pump Package.....	13
5.17 Pump Drives.....	13
5.18 Vaporizers.....	13
5.19 Programmable Logic Controller	13
5.20 Control Center Structure	14
5.21 Tubing and Piping	14
5.22 Instrumentation and Valves	14
6. The LCNG Option	15
6.1 Introduction	15
6.2 LCNG Station Description.....	15
6.3 LNG to LCNG Conversion Process.....	16
6.3.1 LCNG Pump	16
6.3.2 Ambient and/or Fan-Assisted Vaporizer.....	16
6.3.3 Trim Heaters.....	16
6.3.4 Odorizer System.....	16
6.3.5 CNG System	16
7. Instrumentation and Control Devices.....	17
7.1 Introduction	17
7.2 Programmable Logic Controller	17
7.3 Sensing Devices	17
7.3.1 Pressure Sensors.....	17
7.3.2 Temperature Sensors	17
7.3.3 Methane Sensors	18
7.3.4 Flame Detection System	18
7.3.5 Dispenser Impact Sensor.....	18
7.3.6 Liquid Level Indicators.....	18
7.4 Pressure Gauges	18
7.5 Flow Control	18
7.5.1 Remotely Operated Valves.....	18
7.5.1.1 Valves Operated by Electricity.....	18
7.5.1.2 Valves Operated by Instrument Air Pressure	18
7.5.1.3 Valves Operated by Pressure Differences	19
7.5.2 Manually Operated Valves	19
7.6 Pressure Relief Devices.....	19
7.7 Drain Valves	19
7.8 Bleed Valves.....	19
7.9 Flow Measurement Components.....	19
8. Safety Systems	20
8.1 Introduction	20
8.2 Emergency Shutdown Device	20
8.2.1 Emergency Stop Switches.....	20
8.2.2 Location of E-Stops at LNG Facilities	21
8.2.3 Location of E-Stops at Facilities Dispensing LNG and Conventional Motor Fuels	21
8.2.4 Emergency Stop Sensors.....	21
8.2.5 Valves for Emergency Shutdown	21
8.2.6 E-Stop Function	21
8.2.7 Emergency Shutdown for Instrumentation Failure.....	21
8.3 Pressure Relief Valves.....	21
8.4 Limiting Damage From Vehicle/Dispenser Collisions	22
8.5 Flame Detectors.....	22
8.6 Methane Detectors.....	22
8.7 Fire Extinguishers	22

8.8	Emergency Responder Requirements	22
8.9	Signage	22
8.10	Wind Sock	23
9.	LNG System Design Considerations	24
9.1	Introduction	24
9.2	Personnel Resources for LNG Fueling Facility Design	24
9.3	Factors to Consider in LNG Fueling Facility Design.....	24
9.4	Owner and End-User Expectations	25
9.5	Proximity to Buildings, Structures, Population and Land Uses	25
9.6	Source of LNG	25
9.7	Electrical Supply	25
9.8	Planning and Zoning Regulations	25
9.9	Space Requirements	25
9.10	Fueling Rate Requirements	25
9.11	Availability of Maintenance Support for Equipment.....	25
9.12	LNG Customers' Performance Expectations	26
10.	LNG Facility Planning.....	27
10.1	Introduction	27
10.2	Location of LNG-Related Equipment.....	27
10.3	Off-Loading Connections.....	27
10.3.1	Off-Loading Containment.....	28
10.4	Location of Dispensers.....	28
10.5	Emergency Shutdown Switches	29
10.6	Control Center Structure	29
10.7	Unattended Facilities.....	29
10.8	LNG Compound Surface Materials	30
10.9	Lighting	30
10.10	Safety and Security	30
10.10.1	Fencing.....	30
10.10.2	Vehicular Protective Barriers	30
10.11	Equipment Location Considerations	32
11.	Classified Areas, Grounding and Bonding.....	33
11.1	General	33
11.2	Classified Areas.....	33
11.3	Methods of Minimizing Electrical Ignition Hazards	33
11.3.1	Explosion-Proof Construction.....	33
11.3.2	Energy Limiting Systems.....	36
11.3.3	Purging	36
11.3.4	Physical Barriers	37
11.4	Grounding and Bonding	37
11.5	Minimizing Non-Electrical Ignition Hazards	38
11.6	Lightning Protection.....	38
11.6.1	Qualified Designer	38
11.6.2	Best Technology	38
12.	Construction of Foundations and Enclosures.....	39
12.1	General	39
12.2	Equipment Foundations.....	39
12.3	Dispenser Islands.....	39
12.4	Control Center Structure	40
13.	Connecting the Components	41
13.1	Introduction	41
13.2	LNG Piping	41

13.3	Instrument Air Tubing	42
13.4	LNG Storage Tank Vents.....	42
13.5	Dispenser Purge Piping	42
13.6	Hoses, Breakaways and Nozzles.....	43
14.	Signage	44
14.1	Introduction	44
14.2	Signage Details.....	44
15.	Testing, Commissioning, Startup and Training	52
15.1	Introduction	52
15.2	Joint Integrity and Leak Testing.....	52
15.3	Startup Procedure	52
15.4	Training	53
	15.4.1 Training Vehicle Refuelers.....	53
	15.4.2 Training of On-Site Personnel	53
16.	Guidelines for Proper Operation and Maintenance of an LNG Fueling System	54
16.1	Introduction	54
16.2	Types of LNG Facility Operators	54
	16.2.1 Characteristics of an On-Site LNG Facility Operator	54
	16.2.2 Characteristics of a Remote LNG Site Manager	54
16.3	Approaches to LNG Facility Operation and Maintenance	54
	16.3.1 Predictive Operation and Maintenance.....	55
	16.3.2 Preventive Operation and Maintenance.....	55
	16.3.3 Reactive Operation and Maintenance.....	55
16.4	Leak Awareness.....	55
16.5	Daily Inspections.....	55
	16.5.1 Walk-Through Inspections.....	55
16.6	Daily Recording of Operating Parameters.....	56
	16.6.1 LNG Pressure Readings.....	56
	16.6.2 LNG Level Readings	57
	16.6.3 Hour Meter Readings.....	57
	16.6.4 Facility Log	57
16.7	Scheduled Maintenance Tasks	57
	16.7.1 Monthly Operational Tasks.....	57
	16.7.2 Monthly Maintenance Tasks	57
	16.7.3 Fire Extinguisher Inspection	58
16.8	Periodic Tasks.....	58
	16.8.1 Annual Review of Emergency Response and Hazard and Operability Plans	58
	16.8.2 Annual Maintenance Tasks	58
	16.8.3 Recertification of Pressure Relief Valves	58
16.9	Unscheduled Maintenance and Repairs	59
